

HealthNet

Brought to You by ProjectCurry

Vision

HealthNet's goal is to:

- Revolutionize the Healthcare Industry
- Streamline the system for all users
- Simple and intuitive user experience

Highlights of HealthNet

- Migration
- Security
- Ease of use

Migration

- We understand that change can be difficult.
- HealthNet aims to have its new users adapt to using our system as quickly as possible.
- We do this by providing intuitive and powerful tools for migration along with amenities that ease our users in.

Security

- HealthNet is responsible for processing and maintaining highly confidential information
- We provide different authorizations for our users so accessibility is only given to the proper user.

Ease of Use

- At every step of UI design, we kept the end user in mind.
- We modeled the interactions aiming to maintain simplicity, guidance, and clarity all while making your everyday tasks as efficient as possible.

Summary

HealthNet is a system which encapsulates security, ease of use, and an easy migration for new users.
